Manifesto

EN – Feltbi offers acoustic solutions for your projects using 100% polyester-fiber felt made from recycled plastic bottles. We put our respect for nature into practice by powering our factory with solar panels to achieve a zero carbon footprint. We are proud to share our wide range of products with you that will solve your problems in every field.

With our exports to 29 countries, we are proud of making our domestic product a world brand and being a pioneer in the acoustic industry.

TR – Feltbi, %100 geri dönüştürülmüş pet şişelerden oluşan, polyester-elyaf keçeler ile projelerinize akustik çözümler sunar. Doğaya duyduğumuz saygıyı, fabrikamızı güneş panelleriyle güçlendirerek, sıfır karbon ayak izine ulaşma yolunda pratiğe döküyoruz. Her alanda, sorunlarınıza çözüm olacak geniş ürün yelpazemizi sizinle paylaşmaktan gurur duyuyoruz.

29 ülkeye devam eden ihracatlarımız ile yerli malımızı bir dünya markası yapmanın ve akustik sektöründe öncü olmanın gururunu yaşıyoruz.

Let's join hands to leave a livable world for future generations...

Gelecek nesillere yaşanabilir bir dünya bırakmak için el ele verelim..

EN- With Feltbi Felt Acoustic products, we offer innovative and environmentally friendly solutions to your acoustic problems. A sustainable future is among our top priorities. In this direction, we offer both environmentally friendly and high-performance solutions with our Pet Felt acoustic products made from 100% recycled PET bottles.

Our products not only add value to your spaces in terms of aesthetics and functionality, but are also produced to protect your health. Our products, which have national and international REACH, RoHS and OEKO-TEX certificates, have achieved successful results in tests conducted in accredited laboratories.

* Sustainability * Zero Carbon Footprint *
* Recycling * Customer Satisfaction *

TR- Feltbi Keçe Akustik ürünleri ile akustik problemlerinize yenilikçi ve çevre dostu çözümler sunuyoruz. Sürdürülebilir bir gelecek en önemli önceliklerimiz arasındadır. Bu doğrultuda, % 100 geri dönüştürülmüş pet şişelerden üretilen Pet Keçe akustik ürünlerimizle hem çevreye duyarlı hem de yüksek performanslı çözümler sunmaktayız.

Ürünlerimiz, yalnızca estetik ve fonksiyonellik açısından mekanlarınıza değer katmakla kalmaz, aynı zamanda sağlığınızı koruyacak şekilde üretilmektedir. Ulusal ve Uluslararası geçerliliği olan REACH, RoHS ve OEKO-TEX sertifikalarına sahip olan ürünlerimiz, akredite laboratuvarlarda yapılan testlerde başarılı sonuçlar elde etmiştir.

* Sürdürülebilirlik * Sıfır Karbon Ayak İzi *
* Geri Dönüşüm * Müşteri Memnuniyeti *

REACH: Certificate of non-carcinogenicity.

RoHS: Certificate that it does not conduct electricity.

OEKO-TEX: It is a certificate that it has the textile properties of baby clothes.

Bs1d0 Fire Reaction Class: Our products are in inflammable class. Flame retardant, does not drip and does not emit toxic gases.

REACH: Kanserojen olmadığına dair sertifikadır.

RoHS: Elektrik iletmediğine dair sertifikadır.

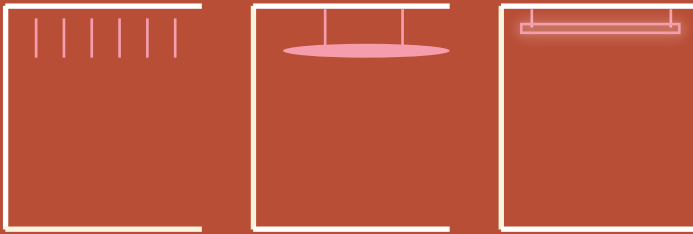

OEKO-TEX: Bebek giysilerinin tekstil özelliklerine sahip olduğuna dair sertifikadır.

Bs1d0 Yangına Tepki Sınıfı: Ürünlerimiz zor alevlenen sınıftadır. Alev yürütmez, damlama yapmaz ve zehirli gazlar yaymaz.

ACOUSTIC CEILING CURTAINS

The image shows a modern office space. The ceiling is a prominent feature, consisting of a grid of white lines forming square panels, each filled with a black, diamond-shaped acoustic mesh. Below the ceiling, the office is furnished with light-colored wooden desks and chairs. A large window on the right side of the frame provides a view of a dense urban skyline with various skyscrapers under a clear sky. The lighting is bright, suggesting daytime.
